WATER & SEWER RATES FOR RV PARKS

- Owner/operator shall have complete maintenance responsibility for the water system within the RV park.
- **City of Burlington has no maintenance responsibility for service lines within the RV park. The responsibility of the city stops at the property line.**
- Collection of revenue from water and sewer will be based on the American Water Works Association (AWWA) meter size chart. Multi-Family Dwelling current charge times the size of the master meter supplying water to the Recreational Vehicle Park.
- Both Water Rates & Sewer Rates for an RV Park are based on multi-family dwelling rates, times meter size.

AWWA explained per unit, using a one-inch meter as an example

Based on AWWA recommendation-

Sewer charge of $14.00 X 1.67 (1" meter) = $23.38

Water charge of $25.00 X 1.67 (1" meter) = $41.75

1" water meter $23.38 + $41.75 = $65.13 (Plus water usage)
