

**BURLINGTON WATER SYSTEM  
CHLORINE BURNOUT  
June 25 to July 16, 2018**

**Burlington Water Department will be doing a chlorine burnout of the water system and flushing hydrants.**

**Your water may smell and taste different and may have a strong chlorine smell. This will also affect Rural Water Districts #2 and #3, and the Cities of Gridley, LeRoy, and New Strawn.**

**The chlorine burn out is a normal warm weather procedure. Flushing the hydrants will also help with moving the chlorine residuals quicker throughout the water system.**

**The water is safe to drink and within state requirements.**
